HOLLOWAY

Say hello to the happiest diamonds ever. Introducing our stunning Yellow Diamond Collection.

Half way between Perth and the Argyle mine, where Champagne diamonds are mined, is Ellendale. Many of the world's "Pure Yellows" are unearthed here.

The Gemological Institute of America grades Yellow Diamonds as: Fancy Light Yellow, Fancy Yellow, Fancy Intense Yellow, and Fancy Vivid Yellow.

Holloway Diamonds have chosen the most precious of these for our exquisite rings. We use cutting edge technology to select uniformly bright & evenly coloured stones. Each breathtaking stone is precision cut to ensure it sparkles with ultimate brilliance. This means there are no unattractive "dark zones" like those you may see in other stores.

Working with yellow diamonds requires knowledge and expertise. We would never cut a yellow diamond as a round. The best yellows are cut as ovals, cushions and radiant's. The breathtaking radiance of a Holloway Diamonds "Yellow" will captivate your heart with pure delight. Slip one on your finger and be instantly smitten!

Visit us in store to see our complete range or talk to us about creating your dream ring.
